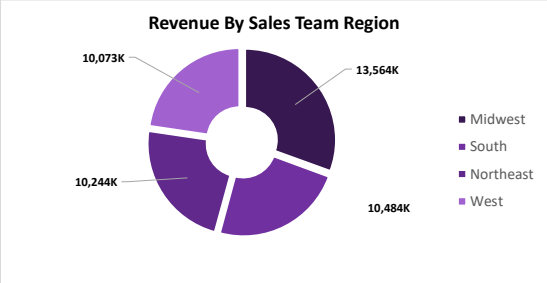
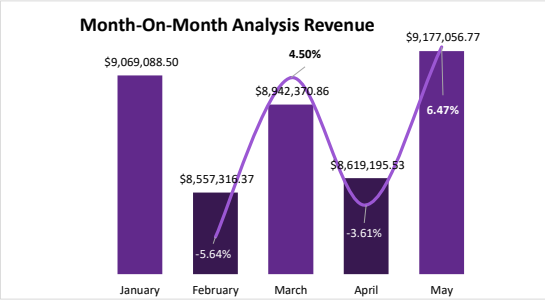
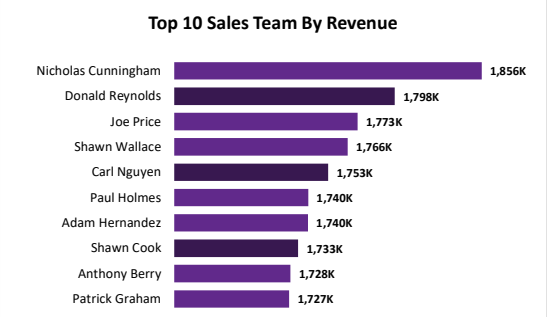
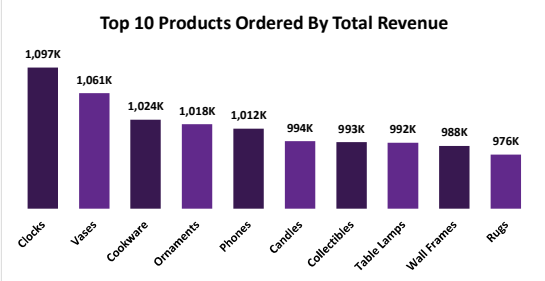
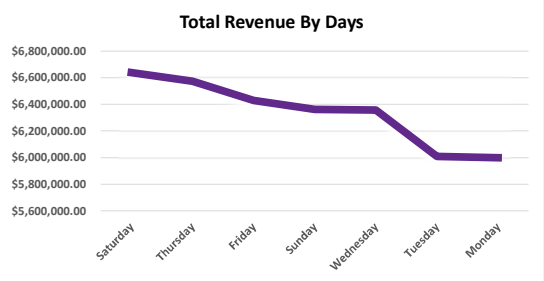
Total Revenue	Total Cost Price	Total Profit	Total Quantities Ordered	Total Orders
$44M	32M	$13M	110,402	20,000

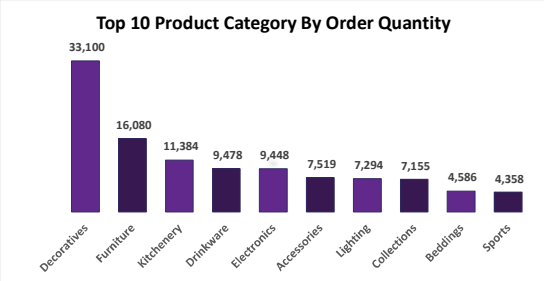












Recommendation

1. More staff should be hired to work on weekends especially on Saturday.
2. Special discounts should be provided for weekday purchases.
3. Discounts should be offered when products are bought in bulk especially sport and bedding items.
4. The prices of product categories like sports, beddings should be reduced to increase the order quantities.
5. Nicholas Cunningham's salary should be increased for compensation of his hard work and to serve as motivation for staffs like Patrick Graham.
6. Localised marketing like using local languages and channels should be adopted in the West and Northeast in order to increase their revenues.
7. Online shopping should be provided during weekdays especially on Mondays and Tuesdays.
